MACMILLAN COFFEE MORNING

Thank you to everyone who donated cakes to sell for our MacMillan coffee morning. We raised £90.00

FLU VACCINATION

The School Nursing Team will be coming in to school to provide children in all Year Groups with the Nasal Flu Immunisation on Tuesday 14th October.

It is important to complete the form online even if you do not want your child to have the vaccine. If you choose not to complete the consent, this does NOT mean that you have refused the vaccine for your child. Link below;

https://eastanglia.schoolvaccination.uk/flu/2025/norfolk

BOOKS & BISCUITS

Thank you to everyone who joined our Books & Biscuits afternoon on Friday 10th October. The children enjoyed reading to you all.

PARENTS CONSULTATIONS

Parents evening letters will be sent home today. Parent consultation dates are Tuesday 21st October and Wednesday 22nd October.

DONATIONS

Please send in any clean recycling you have for our junk modelling box. We always appreciate any cardboard packaging, egg cartons, tubes, plastic bottles, milk bottle caps etc.

If you are having a sort out, please consider donating any dressing up, toys, outdoor toys, old kitchen equipment like pans, crockery and cutlery for our classroom.

MAPLE CLASS

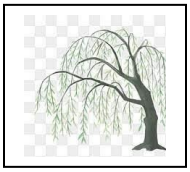

Wow! What a busy few weeks it's been in Maple Class, learning more about our topic about our planet. We have had a visit from a beekeeper, been learning about different places around the world, and been exploring hot and cold places.

KS1 have been looking at the story "Lost and Found" by Oliver Jeffers, and they are now writing their own versions of the story. In their maths, they are now looking at addition, especially adding more and adding together.

Reception have been learning about hot and cold places, the animals that live there and the fruits and veggies that grow there. This has involved a lot of exploring through play, tasting, smelling and investigating.

WILLOW CLASS

In Willow Class we have enjoyed starting to learn some new words in French this year. We can now welcome other people by introducing ourselves and saying ‘Bonjour, Je m’appelle …’. We can ask other people how they are feeling and know how to address other people by calling them Monsieur, Madame or Mademoiselle. We have learnt a new song this year which has proved popular in our class – perhaps on one celebration assembly soon we can sing it to you…

We have also been finding out about shelters in Design and Technology. We have tested the strength of materials using force meters and have worked well in our groups, recording our results. We will use this information to help us use some strong materials for our shelters. The next steps will be to design, make and evaluate our shelters. Watch this space!

Our learning theme this term is ‘healthy body, healthy mind’. In art, we have looked at Julian Opie’s work and attempted to draw in that style. We have looked at the outline of our bodies using chalk on the playground and will start experimenting with different mediums soon.

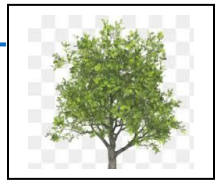

In Science, we have been learning about the human body and have found out about vertebrates and invertebrates. We have carried out various investigations in school, including finding data about animals. We enjoyed working with the other classes to find out information.

ASH CLASS

The class did really well at the Harvest festival last week. Not only with their presentation but also in the way they all looked after the younger children, collected the food and lead the singing. Well done.

In science and DT we have been looking at a healthy mind and a healthy body. We have been designing healthy snacks that the children can sell in school. Initially we have made Crispy Cakes and Flapjacks with various ingredients including mango, banana, currants and chocolate chips. The children have made them and they will be tasting them to see which their favourite is. Next week we will be designing posters, packaging and thinking of a company name.

In science the class were looking at osmosis and diffusion in the blood stream. To show how this works we completed the Skittle experiment. This showed the act of diffusion where the colour was transferred into the water.
